Personnel Medical Cost Dashboard

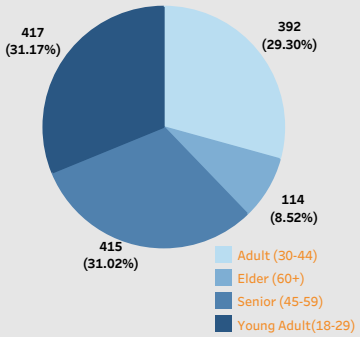

Region: All

Personnel Count	Smoker Rate	Total Charges	Total Children	Avg. Age
1,338	20.5%	$17,755,825	1,465	39

Personnel by Gender

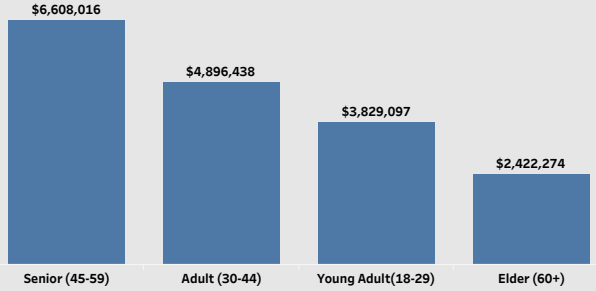

Personnel by Age Group

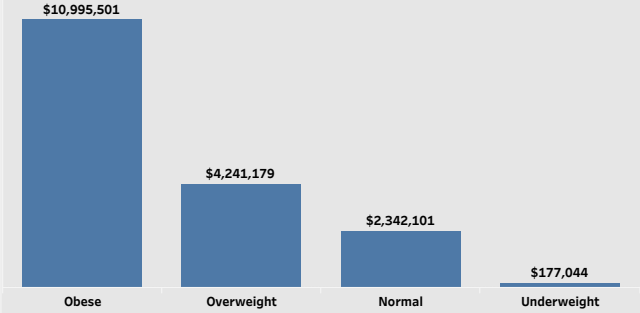

Young Adults and Seniors are each 31% of staff.

Charges by Age Group

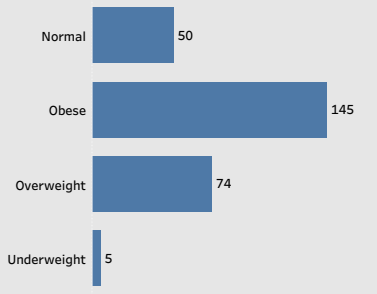

Seniors cost the most overall; Elders cost the most per person (~$21K).

Charges by BMI Category

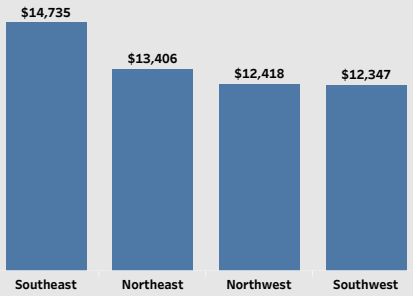

Obese staff are 53% of headcount but 62% of charges.

Number of smokers by BMI Category

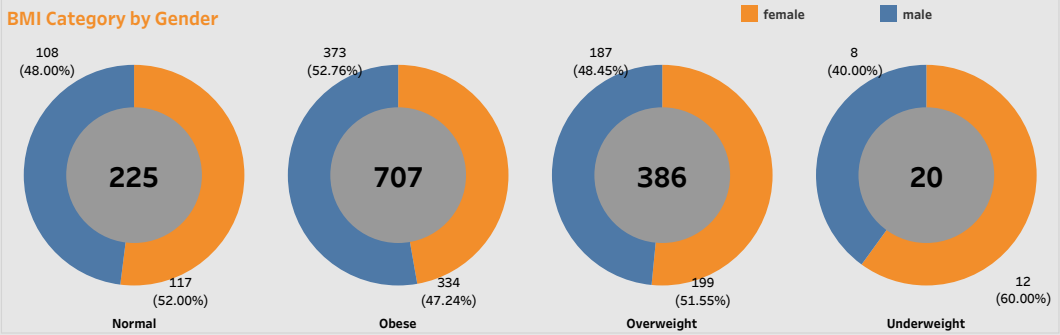

Smoking rates are 19-25% in every BMI group, and 53% of smokers (145) are also obese

Average Charges by Region

Southeast has the highest average at $14,735.

BMI Category by Gender

Gender split is near even; Men make up 53% of obese staff

Key Insights

1) The average cost is about **$13,270 per person**, with $17.76M in total charges.
2) Obesity is the biggest cost driver. It accounts for 62% of charges, and 82% of staff are Overweight or Obese.
3) Cost rises steadily with age. Seniors and Elders are 40% of staff but 51% of charges, and Elders cost the most per person.
4) 20.5% of personnel smoke, and over half of smokers (53%) are also obese.
5) Southeast is the costliest region on a per-person basis, but the gap between regions is modest.

Recommendations

1) Launch a weight-management and wellness program for Overweight and Obese staff, the largest cost opportunity.
2) Offer smoking cessation support to the 1 in 5 staff who smoke, starting with the 145 obese smokers.
3) Fund preventive screenings for Seniors (45-59) and Elders (60+) to catch costly conditions early.
4) Investigate the Southeast to see whether its higher cost comes from more obesity or smoking before targeting it.
